Vaughan Dividend Growth Investment Program

A Separately Managed Account

Description:

- ◆ For Accredited Investors Only.
- ◆ The Vaughan Dividend Growth Investment Program invests in common stocks that have paid larger than market average dividends and have demonstrated a policy of maintaining or increasing dividends to investors over a several year period.
- ◆ The program invests in common stocks where the earnings of the company are high when compared with the price of the company's stock. We seek companies that are growing their earnings and will be able to increase dividend payments.
- ◆ When we determine that the stocks of individual holdings are fairly priced under our analysis, then we start to consider selling.
- ◆ Portfolio investments are made in Mid to Large Cap Global Companies.
- ◆ Rules Engine- all portfolio investments are chosen by applying our proprietary formulas to the universe of equity positions.
